The American people are in the midst of civil war. That calamity which, in the just and almost universal judgment of mankind, is the direct which can befall nations, has already covered our country with its terrible shadow; and the gloom thickens from day to day, portending a conflict as trightful as it is repulsiv -whose issues are, in many respects, hardly less nucertain than they may be vast. dreds of thousands of armed men are hastening to slay each other-led by captains many of whom are worthy to command heroes, and provided with every means of mutual destruction which the science and skill of the age ean devise. Hundreds of millions of dollars have already been expended in these immense and fatal preparations: and so thoroughly is the most warlike of all races aroused, and completely are the exigencies of the times held to demand of every man a complete read-

And we feel perfectly satisfied that if every arm was removed from the fifteen S ave States, and every man in them all was allowed freely to choose his side—and then the whole lation was equally and completely armed, and the question tought out, the result would be the suppression of the revolt. Burn of Southern parents, in a Southern State-never having owed or professed allegiance to any other government than that of the United States, and that of the Common wealth of Kentucky-never having even resided, during a life far from short, except temperarily and for brief periods, out of the South—and having been obliged by our course of life to acquire a large acquaint ance with the people, the institutions, and the interests of the South; the opinion we have expressed may be fairly weighed against a large amount of clamor. It would, we are convinecd, be vouched as true and sound, on the conditions stated, by more than half a million of Southern men-ready upon fair occasion, and if neel required, to uphold it with their lives.
2. Again, the second imperative necessary, proFininary to any flagrant proceedings by force, was the ab-olute certainly that the pretensions of the South would be supported, at least by opinion, in the twenty States of the North, in such a way as to divide and weaken

all concerted movements, designed to procipitate the overwhelming force of twenty millions of people, upon eight millions-if the whole South was united-with four millions of slaves scattered amongst them; concerning the free-dom or the servitude of which slaves, the revolutionists professed that the chief cause of the war lay. To us, we admit this whole affir of seession has been an enigma, in this-that all the reasons and pretexts, alleged as a justification, or even an excuse for the course which the revelt has taken, have appeared to us so totally disproportioned to the conduct they professed to expinin; that we have felt as if there must be other grounds, as yet concealed from the public, upon which men of sense and honor pursued a line of conduct, apprendy so monstrous, as compared in Maryland, uppear to be signally amenable to this charge, whether we consider what it was they attempted-or the means which they resorted t -or the manner in which they quailed, when it became necessary to assummer the responsibility of what they had done—or the machinations they have kept up, clear—and amongst them not one is more imsince their conspiracy in b th those States was defeated. And yet the number and the magnitude of those we have attempted to elucidate, compared with the narrowness of the space they occupy, unght indicate that our error may rather be in attempting too much, than in not attempting more. The whole subject is one, of which we never think seriously, withent profound astonishment and anguish; about which we have never written a line without attempting to exercise the severest rectitud, as if we were speaking in the face of another generation. This civil war is a terrible portent. All civilized nations regard it with horror; and posterity will be obliged to pronounce it an inconceivable untrage upon the recdom, the morality, and the civil zation of the present age.
